 - For Caesarstone composite tops - <http://www.caesarstone.co.za/>
 - For Granite tops - <http://www.granito.za.com/>
2. Kindly point out to the Sales representative the location of ALL water pipes and/or electrical ducting to ensure we do not damage any water pipes and/or electrical ducting during drilling
3. Please ensure that you have all the relevant appliance sizes and measurements if possible (Product codes will also assist)
4. Kindly ensure that the installation site is clean and free from other contractors on the day of installation
5. Please arrange that all built-in appliances and sinks are present on site on the day of installation
6. The following manufacturing lead times are applicable in most cases except if agreed otherwise:
 - Melamine / PVC materials: 16 - 18 working days
 - Solid and Semi-solid material: 30 - 40 working days
 - Paint / Duco: 30 - 40 working days
7. Kindly have the following present when meeting with the sales representative if possible:
 - Floor tile/carpet/screed sample
 - Wall paint/tile/cladding sample

8. Please ensure that you have discussed the following with your sales representative and also ensure that you fully understand what each aspect entails:

- Colour and finish of your Kitchen, BIC's, Vanities, Bar and other cupboards including paint techniques, Duco, Solid wood, semi-solid wood, Melamine, Niemann and other materials
- Kitchen lighting including light shields, light pelmits, downlighters, lights in glass cabinets and LED strip lights
- Kitchen fittings such as wicker baskets, power docks, built-in dustbins,
- Door handle choices
- Door patterns
- Formica Tops, Granite, Ceaserstone and Timber/Wood tops
- Facias connecting the wall cupboards with the ceiling
- Bulkheads
- Cornices if applicable
- All electrical, water and drainage points to be discussed according to kitchen layout and design
